Pick-Hits

Caught In The Act Andrew W.K.

No matter what city or town you live in, do not miss this show. *Andrew W.K.* is full of big guitars and sing-along rock anthems as the band uses its special brand of head thrashing rock and roll to bash you senseless. The quintessential fans band, short, tall, big or small you will feel embraced, energized and appreciated for being a part of the experience. Don't use age as an excuse not to party hard, because once the music starts everyone turns into a 15-year-old kid. A.W.K. never stops jumping, kicking, or thrashing, treating every concert like it was his first. And if you want to meet the man behind the band, fear not, he is very approachable, and takes the time not only to sign autographs, but to personalize them as well. It's refreshing to see someone so in touch with the fans. A truly amazing experience.

At The Movies Rules of Attraction

This movie tracks the lives of three college students that attempt to make sense of their respective love lives. Sean, is a womanizing drug-dealer, but has now fallen for Lauren, a virgin whose pining for her boyfriend to return from European, while Paul, who likes to hit on straight men, now has the hots for Sean. Their paths cross a bevy of other lost souls during a college break week. The dynamics of the boy-boy-girl triangle are ultimately less crucial than the film itself as a collection of signs and gags, which individually point to everything that is wrong with college experience. Don't let your parents see this film; if they do they will likely think twice before sending you off to college.

On Video Scooby Doo

The television cartoon hero goes CGI in this crowd pleasing big-screen adaptation of Scooby Doo. Two years after a clash of egos forced Mystery Inc. to close its doors, Scooby Doo and his clever crime-solving cohorts Fred, Daphne, Shaggy and Velma are individually summoned to Spooky Island to investigate a series of paranormal incidents at the ultra-hip Spring Break hot spot. Concerned that his frightfully popular resort might truly be haunted, the owner tries to reunite the meddling detectives to solve the mystery before his supernatural secret scares away the college crowds. Scooby and the gang have to overcome their personal differences and forget everything they think they know about fake ghouls and phony creatures to crack the case, save themselves and possibly the world. A fun outing with many sly digs at pop culture.
